Piper Germany

The Exterior.

The exterior

The exterior of this **2000 Piper Seneca V** is in good overall condition, especially considering its age. The aircraft features a **striking** color scheme with a white top, red bottom, and accents of gold and blue.

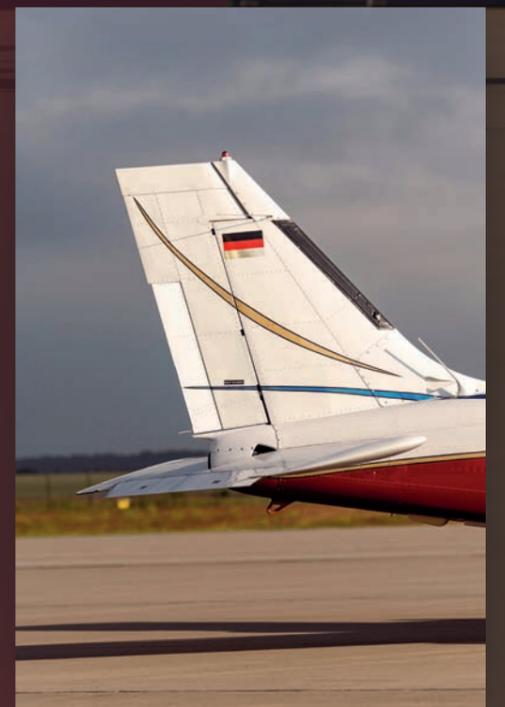

While there are some signs of wear, as expected with an aircraft over 20 years old, the original paint remains in **good condition** with no major cracks or scratches.

Additionally, there are no visible signs of corrosion, reflecting the **diligent care** and **attention** that this aircraft has received throughout its service life.

Details.

Specifications & Performance

The **2000 Piper Seneca V** is a twin-engine aircraft renowned for its **performance** and **safety**. Each engine rotates in opposite directions, ensuring a **smooth** and **balanced** flight experience.

The **D-GRUS** offers **impressive** performance capabilities, with a maximum speed of **205 knots** and a service ceiling of **25,000 feet**. Its rate of climb ensures **quick ascents** to cruising altitude. The aircraft's normal cruise speed provides a **balance** of **speed** and **efficiency** for extended flights.

With a fuel capacity of 732 pounds, the **Seneca V** can achieve a maximum range of **886 nautical miles**, making it suitable for longer journeys. The aircraft's payload capacities allow for **flexibility** in passenger and cargo configurations.

Overall, the **twin-engine** configuration, along with these performance specifications, underscores the **Piper Seneca V's** reputation for **safety**, **reliability**, and **high performance**.

Time

State

This **Seneca V** has a total flight time of **1,490h 5m** and has completed **1,003 landings**. The engines were installed new in 2020 at **1,365h**, meaning they have approximately **125h** of operation. These engines, rebuilt by **Continental** and installed by **Piper + Jet Maintenance**, are in **excellent condition** and have significant time remaining before the next overhaul.

The **McCauley propellers** were installed new in **mid-2014**. They are currently enrolled in a **TBO extension program**, ensuring **continued reliability** and **performance**. Despite being in service for a few years, they have relatively low operating hours, further **enhancing** the aircraft's **overall reliability**.

This **detailed** and **well-documented** maintenance history **highlights** the **meticulous care** and attention this **Piper Seneca V** has received, ensuring it remains in **optimal flying condition** and ready for many more hours of **reliable service**.

Now, let's
take a look
inside...

Interior.

The Interior

Stepping inside this **2000 Piper Seneca V**, you will find a **timeless** and **elegant** interior that exudes **comfort** and **sophistication**. The cabin is adorned with **beautiful** light beige **leather seats** and **plush carpets**, creating a **warm** and **inviting** atmosphere.

The leather, headliner, and carpets all match **harmoniously** in light beige tones, providing a **bright** and **comfortable** environment for both **pilots** and **passengers**. Wood accents **tastefully** complement the overall design, adding a touch of **classic elegance**.

The cabin is **notably spacious**, accommodating a total of **six people**: two in the cockpit and four in the club seating arrangement. Additionally, there is **ample** space for **luggage** in the aft compartment.

The fuselage is designed with **convenience** in mind, featuring a pilot's door, a separate door for the rear seats, and an additional door for easier access to the luggage compartment.

Despite being over 20 years old, the interior has been **meticulously maintained**. Both the **leather** and **carpets** are in good condition, showing minimal signs of wear. This **careful upkeep** ensures that the cabin remains a **pleasant space** for any journey, reflecting the **high standards** to which this aircraft has been held. The **timeless design** and **well-preserved** materials make the interior of this **Seneca V** a true **standout**.
